

Function

A large vertical column consisting of concentric rows of clear stream nozzles. Excellent for viewing at great distances, especially when illuminated.

Not water level dependent.

Specification

Construction shall be cast bronze with precision clear stream brass nozzles, neoprene gasket and stainless steel fasteners.

Options

ASU Series - 15° swivel connection for directional alignment of nozzle

Note

1. Requires fine screening at pump (see performance chart).
2. Dimension 'W' (nozzle projection above water) must be maintained.
