

## Function

A clear, widespread, fan-shaped display. Ideal when angled to 45° and used as a peripheral effect in a location free of wind. Most effective used in multiples.

**Not water level dependent.**

## Specification

Construction shall be cast bronze.

## Options

ASU100 - 15° swivel connection for directional alignment of nozzle

## Notes

For optimum effect

1. Requires non-turbulent water supply
2. Operate at 3' (1 m) throw for best effect

## Performance

Part no.	inlet	suction strainer openings required	throw	2'	3'	5'	7'
